

COMMERCIAL AND ELECTRIC POOL HEATERS

Featured Highlights

- Electronic ignition
- Built-in draft diverter (indoor models) simplifies installation
- Integral pump assures proper water flow (Models 500-1825)
- Automatic gas valve.
- Stainless steel burners, with slide-out burner tray for easy maintenance and long life (Models 500-1825)
- High temperature refractory firebox liner to 2000° F for greater efficiency.
- Easy-to-service header flanges
- Corrosion-resistant glass-lined or bronze headers
- CSD-1 and other options available. Contact factory for part numbers

COMMERCIAL MEGATHERM® High Performance Electronic Ignition Heaters

Powerful, efficient, and reliable, MegTherm™ pool heater are large residential pools where economical performance and rapid heat-up are required. Available in indoor and outdoor models in both natural and propane. MegaTherm™ is design certified to the ANSI® Z21.56 Standard for Gas-Fired Pool Heaters. (Outdoor 500-1825 units are certified for use without the addition of a draft diverter or external vent. Indoor units incorporate a built-in draft diverter and require only vent piping.) Salt water models (500-1825) are available with cupronickel alloy heat exchanger tubes and bronze headers and header covers.

Featured Highlights

- Reliable operation in natural or propane models
- Fan assisted and filtered combustion air
- Dual ignition systems for models greater than 750,000 BTU
- Built-in mixing system reduces condensation possibilities
- Fits through standard doorways.
- 200/208 and 575 volt models available
- Gas Supply right or left side.
- CSA Certified.

ELECTRICAL POOL & SPA HEATERS

ELECTRICAL HEATERS

For Pools & Spas By Coates

A built-in flow switch, to prevent operation of the heater when there is no water flow, is standard equipment.

Standard features: Stainless steel vessel. Incoloy heating element. Close differential thermostat. High temperature limit, manual reset. Flow switch. Element pilot light. Element sequencing of single phase heaters. Internal protective fusing. Easy electrical terminal blocks.

ELECTRIC SPA HEATER with Exclusive Built-in Flow Switch By Coates

Standard features: Incoloy heating element. Close differential thermostat. High temperature limit, manual rest. A seamless, red-brass cast vessel is one of the major features. Vessel design directs water flow over heating elements to optimize heat transfer. Flow switch. 1½" pipe connections.

Cat. No.	Coates Model No.	Price
527	12406ST, 5.5 KW, 240V	\$610.00
528	12411ST, 11 KW, 240V	\$646.00

THE MAX-E-THERM™ LEAVES OTHER HEATERS COLD!

- **Easy-read digital display.** Pivoting UV-resistant plastic visor filters the sun's rays to give you a better view of the digital display.
- **Diagnostic lights.** Control panel indicator lights tell you whether to service the heater or the system if problems arise.
- **Weatherproof touch controls.**
- **Forever rust-proof.** Sleek, black matte enclosure made of Dura-Glas® – an exclusive Sta-Rite material that handles the heat and weathers the elements. 10-year warranty.

- #SR200NA Max-E-Therm Heater 200,000 BTU \$2,369.00
- #SR333NA Max-E-Therm Heater 333,000 BTU \$2,744.00
- #SR400NA Max-E-Therm Heater 400,000 BTU \$3,054.00
