CHEMICALS ETC.

A. SODA ASH – (pH UP)

Dry granular product to increase pH of pool water. When pH drops below 7.2 soda ash will help restore your pool water to its proper pH level.

#300-05 5-lb. container	\$9.70
#300-10 10-lb. container	\$15.00
#300-50 50-lb. bag	\$27.50
<i>Also, pH Up available in Great Lakes Biochemical brand.</i>	
#3454 2-lb. jar	\$3.85
#3456 4-lb. jar	\$6.75
#3458 10-lb. container	\$12.70

B. SODIUM BISULPHATE – (G.B.S. or pH DOWN)

Is a granular form of muriatic acid and is safer, easier and less corrosive. Whenever pH rises above 7.6 add pH reducer.

#312-06 6-lb. container	\$12.75
#312-12 12-lb. container	\$21.15
#312-50 50-lb. drum	\$50.95
<i>Also, pH Down available in Great Lakes Biochemical brand.</i>	
#3489 2-lb. jar	\$3.30
#3491 4-lb. jar	\$6.25
#3493 10-lb. container	\$13.60

NOTE: 50 lb. bags of Sodium Bisulphate (G. B. S.) available on request for BIDS.

C. SODIUM BICARBONATE – (ALKALINITY INCREASER)

Is a granular product to increase the total alkalinity in your pool water when it drops below 80 p.p.m.

#333-05 5-lb. container	\$9.30
#333-10 10-lb. container	\$14.40
#333 50-lb. bag	\$43.50

Also, available in Great Lakes Biochemical brand.

#3495 4-lb. jar	\$5.60
#3497 7½-lb. jar	\$10.40
#3496 15-lb.	\$20.40

Dosage: 1½ lb. per 10,000 gallons of water will raise the alkalinity level 10 p.p.m.

D. HAL-STA – (POOL CONDITIONER or STABILIZER)

Chlorine and its derivatives are susceptible to rapid decomposition by the sun's ultraviolet rays. To cut this loss and improve the chlorine's active life, stabilize with pool conditioner. Stabilizer is compatible with the chlorine releasing it at a slow rate to last longer and reduce chemical needs.

#3393 2-lb. container	\$9.00
#3395 4-lb. container	\$11.95
#3396 25-lb. container	\$54.95
#3397 45-lb. container	\$89.95
#3398 100-lb. drum	\$160.00

Also, available in Great Lakes Biochemical brand.

#3481 2-lb. jar	\$6.40
#3483 4-lb. jar	\$13.95
#3486 10-lb. jar	\$33.00
#3487 35-lb. pail	\$111.00

Dosage: 1 lb. per 4,000 gallons of water.

E. DIATOMACEOUS EARTH

Swimming pool grade precoat media produces brilliantly clear water for any diatomaceous filters.

#310 1-9 50-lb. bags	\$28.00 ea.
10-19 50-lb. bags.	\$25.20 ea.
20 or more 50-lb. bags	\$23.95 ea.
#311 10-lb. bag	\$12.25
#316 25-lb. bag	\$16.90
#311-BOX 10-lb. box	N/A

Dosage: 1 lb. of D.E. per 10 sq. ft. of filter area for coating.

F. MURIATIC ACID

Is a liquid chemical used for lowering total alkalinity or pH.

#325 1-gal. container	\$5.50
---------------------------------	--------

Note: Cases consist of 4 gallons.

G. CALCIUM CHLORIDE

Dry granular chemical used in increasing hardness of the water.

#3446 6-lb. jar (GLB brand)	\$9.10
#3442 15-lb. pail (GLB brand)	\$22.80
#318-50 50-lb. bag	\$29.40

Dosage: 5 lb. per 10,000 gallons of water increase hardness 25 p.p.m.

H. SODIUM THIOSULPHATE

When chlorine concentration becomes too high in pool water, use this chemical to lower chlorine level safely.

#335 5-lb. pail	\$17.50
#339 25-lb. pail	\$71.00
#340 50-lb. pail	\$122.00

Dosage: 1 lb. per 100,000 gallons of water decreases chlorine 1 p.p.m.

I. ANTI-FREEZE (non-toxic)

Protects your pool and spa water systems from freeze damage to 50°F (below zero) when used as directed (propylene glycol base).

#399 1-gallon container	\$5.00
-----------------------------------	--------

ALUMINUM SULFATE (not shown)

#301-50 50-lb. bag	N/A
------------------------------	-----

WIPE OUT By King Technology

Quickly penetrates dirt, grease and grime and holds them in suspension for fast, easy removal.

- No scrubbing
- No toxic fumes
- Will not affect water balance
- Safely used on fiberglass, tile, concrete, marble, wood, covers and vinyl liners.

#KING-6012 quarts	\$8.95
#KING-6012-1 gallon	\$29.95

K. WATERTITE LEAK SEALER

Fix cracks without draining. Dual action formula first stops and then seals leak with a waterproof glaze.

#3643 quart	\$18.50
-----------------------	---------

L. pH FREE & CLEAR TAB (not shown)

The simple way to maintain a balanced pool.

- Clarifies water
 - Maintains pH & total alkalinity
 - Enhances filtration
 - Improves sanitizer performance
 - For best results use with 3" chlorine sanitizer
- | | | | |
|--------------------|---------|---------------------|---------|
| #341 7 lb. | \$21.95 | #342 14 lb. | \$33.35 |
|--------------------|---------|---------------------|---------|

Dosage per week: 1 tablet for up to 7,000 gallons; 2 for up to 14,000; 3 for up to 21,000; 4 for up to 28,000 gallons.
