SANITIZERS & SHOCK TREATMENT

BROMINATING DISINFECTANT TABLETS

Bromine disinfectant tablets used for spa feeders or float dispersion.

- #3361 1.65 lb. jar \$14.85 #3362 4 lb. jar. \$37.25
- #3367 Bromo Start—use with brominating disinfection tablets to establish initial bromide reserve.
- 6–2 oz. pouches \$15.40

CHLORINATING CONCENTRATE GRANULAR CHLORINE

- #3673 1 lb. bottle \$10.85 #3674 2 lb. bottle \$17.50
- #3675 5 lb. bottle \$42.80

ENHANCE

Is a clean solution of bromide salts which remains as a stable bank in the spa/hot tub water until Activate is added. Dosage: 8 oz. per 500 gallons of water.

- #3603 quart bottle \$14.15
- #3605 gallon bottle \$45.95

ACTIVATE

Is a dual purpose buffered non-chlorinating oxidizer for release of available bromine from the bromine salts contained in enhance and for the shock treatment of spa and hot tub water. Dosage: 8 oz. per 500 gallons of water.

- #3609 2 lb. bottle . \$18.95 #3613 20 lb. pail \$129.00
- #3611 5 lb. bottle . \$42.75 #3615 50 lb. drum \$299.00

SPA LUSTRE

The one-step spa polish and sealant. Spa Lustre features special non-abrasive compounds for polishing and a reactive silicone that penetrates and seals the surface to prevent unsightly fading and oxidation. Great for fiberglass slides too.

- #3616 pint bottle \$14.65

Maintenance: Recommended to maintain the finish and surface integrity every time spa is drained .

SPA COVER WIPES

- Easy to use, disposable wipes
- Deep cleans and conditions with UV blocker

- #3600 - 25/container \$9.35

WATER TREATMENT CHEMICALS

SPA CLARIFIER

Helps clean cloudy water and restores sparkle to dull water. It removes micro size foreign particles which can cause cloudy dull water by coagulating these particles into masses large enough for efficient filter removal. Dosage: initial treatment: 2 oz. per 500 gal.; weekly: 2 oz. per 500 gallons of water.

- #3623 pint bottle \$6.30 #3625 quart bottle \$10.80

FOAM OUT

Is a food grade anti-foam agent which works effectively at cutting down foam and preventing foam build-up in spas.

- #3635 pint bottle \$7.75
- #3637 quart bottle \$14.80
- #3639 gallon bottle \$48.00

NATURAL CLEAR

Cleans cloudy water, eliminates scum lines and reduces odors with natural enzyme cleaning action. 100% biodegradable and safe for the environment. Dosage: 1 oz. per 500 gallons of water initial startup; weekly: 1 oz. per 500 gallons of water.

- #3411 pint bottle \$7.20

PH CONTROL

PH MAGIC

The special buffering action of PH Magic adjusts and locks-in pH between 7.2 and 7.8, the proper pH level for spa water, and eliminates pH drift for up to 3 months. PH Magic should be added each time the spa is refilled with fresh water.

- #3650 3-lb container. \$22.95

Dosage: 3 lb per 500 gallon temporary cloudiness may occur but the water will clear once the product is fully dissolved.

SURFACE & EQUIPMENT MAINTENANCE

PROTECT PLUS

Prevents mineral scale and stain formation and brightens water. Precipitation and oxidation of iron, copper and manganese may appear in the form of stains, discoloration or rust to the spa and the piping. Protect Plus is designed to suspend and inactivate the mineral elements; thus preventing them from oxidizing and causing scale formation, staining, and cloudy water.

- #3617 pint bottle \$10.50
- #3619 quart bottle \$15.60
- #3621 gallon bottle \$55.20

FILTER FRESH

A liquid cartridge cleaner that removes grease, oil and scale from hot tubs and spa filters. Also good for sand and D.E. filters. Dosage: 16 oz. per 2½ gallons of water for soaking.

- #3628 pint bottle \$8.00

SPA CLEANER

Spray and wipe formula removes grease and grime with the power of citrus.

- #3641 pint bottle \$10.00

MINUTE RINSE

Cleans spa cartridges in 5 minutes when overnight soaking is not possible. Special fast-acting detergent and release agents remove grime and grease, and scale from cartridge filters in minutes. Improves filter efficiency quickly.

- #3626 16 oz. Trigger Spray \$8.75

LOOK! ITS BOB!

Super scum absorbing technology allows floating foam to collect water contaminants that create scumlines, cloud water and clogged filters. Absorbing up to 40 times his own weight in contaminants.

- #3455 One per bag \$5.95

BALANCERS

SPA INCREASE

Liquid formula is used to raise the pH and total alkalinity of spa water. 1 oz. per application and retest.

- #3654 pint bottle \$5.15

SPA DECREASE

Liquid formula gently used to lower the pH and total alkalinity of spa water. 1 oz. per application and retest.

- #3656 pint bottle \$5.15

LIQUID CALCIUM HARDNESS

Liquid formula helps to increase water hardness to prevent foaming and equipment corrosion. 1 oz. per 500 gallons of water will raise 7 p.p.m.

- #3663 quart bottle \$5.00

pH UP

Sodium carbonate (soda ash) to increase pH.

- #3653 1 lb. bottle \$4.15

pH DOWN

Sodium bisulphate used to decrease pH.

- #3655 1 lb. bottle \$3.80

ALKALINITY UP

Granular sodium bicarbonate food grade to raise alkalinity.

- #3657 1 lb. bottle \$3.80

KITS/TESTING

RENDEZVOUS DELUXE CARE KITS

Complete spa start-up systems include clarifier, defoamer, disinfectant, sequestering agent, water balancers, shock, filter cleaner, enzyme water cleaner, fragrance, test strips, and spa care guide.

- #3660 Two part bromine disinfection system with Activate and Enhance with a built-in shock treatment. Kit also includes all of the above chemicals. . . \$52.25
- #3661 Bromine based disinfection system comes complete with refillable floater kit. Also includes all of the above chemicals. \$52.25
- #3662 Granular chlorine disinfectant systems. Kit also includes all of the above chemicals. \$52.25
