

POOL PRODUCTS

SURFACE CLEANERS

A. TLC
New thicker TLC no-run formula clings longer to clean better. A heavy duty liquid cleaner for pool walls and surfaces. TLC removes grease, grime, caked-on oils, water line rings and scale in one operation, and restores original sheen to fiberglass, acrylic, ceramic, vinyl and the pool surfaces. It is a heavy liquid that adheres readily to any surface and bubbles as it attacks dirt and grime. When TLC has stopped bubbling it can be easily rinsed off.
#3434 quart bottle . . . \$10.30 #3436 gallon bottle . . . \$35.65
Usage: Always wear rubber gloves with a sponge, cloth or soft brush for application. Allow 3 minutes while it bubbles then scrub briskly.

B. COVER CARE
Cleans and deodorizes pool and solar cover. Cover Care provides protection during folded storage and prevents sticking together. It removes dirt, grease, oils and grime and prevents unpleasant odors with a fresh lemon scent.
#3365 quart bottle . . . \$9.05
Dosage: Dilute 12 fl. oz. of Cover Care with 2½ gallons of water and spread over the entire cover. Clean with nylon brush and then rinse cover with fresh water.

C. X-34 POWER PAD
All natural ingredients makes this pad an effective and safe method for cleaning tile, vinyl, fiberglass and more. Cleans just with water or use as an applicator for surface cleaning solutions.
#3447 Reusable Carded Pad . . . \$6.40

STAIN PREVENTION/MINERAL CONTROL

D. STAIN MAGNET STAIN REMOVAL SYSTEM
Stain Magnet is a stain remover for use in all types of pools including gunite, plaster, concrete, vinyl and fiberglass. The 2-Part System includes Stain Magnet and Sequa-Sol to remove and prevent metallic stains. Use Stain Magnet to remove metallic stains such as iron, copper, manganese, cobalt and silver without the inconvenience of draining pool water. Follow the Stain Magnet treatment with GLB's Sequa-Sol to provide long-lasting protection against future stains. Quickly eliminates stains without draining. No pre-testing required. No clouding of water. Can be applied directly on stubborn stains.
#3420 2½ lb. Granular . . . \$17.80
#3415 System: Sequa-Sol and Stain Magnet . . . \$31.20

STAIN PREVENTION/MINERAL CONTROL

E. SEQUA SOL
Will prevent the precipitation of iron, manganese, copper and calcium; thus, eliminating staining, scale formation and short filter runs. It will preserve and protect equipment, pipes and fittings which might otherwise be subject to scaling, clogging and corrosion with regular use, a microscopic protective film is formed on interior surfaces and piping. This film is impervious to oxygen and since it is an electrolytic insulation, problems of oxidation and metallic corrosion are reduced.
#3410 quart bottle . . . \$15.65 #3412 gallon bottle . . . \$55.30
Dosage: initial treatment 16 fl. oz. per 10,000 gallons of water.
Weekly treatment: 4 fl. oz. per 10,000 gallons of water.

F. SUPER SEQUA-SOL
Is a dry concentrated form of Sequa-Sol designed to eliminate rust, scale and corrosion wherever a concentrated form of a dry product is preferred. The use of Super Sequa-Sol as the water is being introduced into the pool, prior to chlorine treatment, will prevent the precipitation of iron, manganese, copper and calcium before they can oxidize, color the water, leave stains or form scale.
#3414 2 lb. bottle . . . \$23.65 #3416 20 lb. pail . . . \$198.00
#3419 50 lb. drum . . . \$321.00
Dosage: initial treatment 10 oz. per 10,000 gallons of water.
Weekly treatment: 2 oz. per 10,000 gallons of water.

TESTING AND MISCELLANEOUS PRODUCTS

G. X-CHANGE
Converts Baquaci® or SoftSwim™ Pools – without draining. Gradual conversion process allows continuous pool use with little equipment risk or changes in water appearance.
#3443 quart bottle . . . \$19.95

H. 4 WAY TEST STRIPS BROMINE AND CHLORINE
A quick dip of the GLB 4-way dip and read test strips gives pool and spa owners the pH, total alkalinity and free chlorine and total bromine of the water quickly and accurately. pH test range is 6.4–8.4. Total alkalinity range is 0–180 p.p.m. and chlorine and bromine reading is 0–10 p.p.m. Contents: 50 strips per bottle.
#3457 bottle . . . \$8.70

FILTER CLEANERS

I. FILTER CLEANSE
A 100% active cleaner for most pool and spa filters. Filter cleanse effectively removes scale, rust, hair cosmetics, oil, etc. which commonly reduce the performance of the filter. It has a color indicator that acts as a guide to proper application. Red–It's Working! Orange–It's Weakening! Yellow–It's Gone! Just add more filter cleanse to return the solution to red. An overnight soak in a solution of filter cleanse will descale and decrease clogged and channeled filters.
#3426 2 lb. bottle . . . \$15.55 #3430 20 lb. bottle . . . \$131.00
#3432 50 lb. drum . . . \$267.00
Dosage: Dissolve 1 lb. in 5 gallons of lukewarm water and let soak overnight (at least 12 hours).

J. FILTER FRESH
A liquid cleaner designed to remove dirt, grease and scale from cartridge filters. Filter Fresh is concentrated for effective economical removal of body oils, lotions, grease and mineral scale.
#3629 quart bottle . . . \$10.25 #3631 gallon bottle . . . \$39.00
Dosage: 16 fl. oz. of Filter Fresh with every 2½ gallons of lukewarm water, then place elements in solution and allow to soak for 12 hours.

K. FILTER RINSE
Restores "Like New" efficiency to swimming pool sand filters. Filter Rinse is a unique, dual action product that removes both caked-on organics and inorganics from the sand particles. Regular use will renew the sand particles and keep the filter operating at maximum efficiency to yield crystal clear water with longer periods between backwashings.
#3499 quart bottle . . . \$14.90
Dosage: Adding filter rinse to the skimmer during the backwash cycle removes this caked-on material, and permits free and even water flow through the sand. 8 oz. per backwash.

L. ULTIMA ENZYME CLARIFIER
• Enzyme & clarifier in 1
• Clears cloudy water
• Improves filter efficiency
• Compatible with sanitizers
• Non-toxic biodegradable
#3427 1/2 gallon container . . . \$15.90
